

1-to-64-core optical splitter box

With a 1:64 ratio, it provides efficient signal splitting. The package includes 2pcs of optical splitters, allowing for easy installation and use. Upgrade your optical fiber network with this reliable ...

The 1X64 ABS Box PLC Splitter With SC Connector is a versatile and efficient solution for distributing optical signals in optical fiber networks, making it suitable for applications such as FTTX (Fiber to the ...

CommScope offers a portfolio of bare and connectorized splitters/couplers in a wide range of styles and split ratios, and splitter modules for inside plant (ISP) and outside plant (OSP) applications that help ...

The compact yet robust LS Series splitter modules are available in multiple configurations (1x64, 1x32, dual 1x16, dual 1x8).

Fiberinthebox 1x64 Fiber PLC Splitter can distribute or combine 1 optical signal into 64 outputs fibers.

The 1×64 ABS box module type PLC Splitters have high performance in terms of low insertion loss, low PDL, high return loss, and excellent uniformity over a wide wavelength range from 1260nm to ...

This 1×64 PLC splitter is a balanced optical splitter that can distribute the input signal evenly across multiple output channels. This ensures each output receives an equal share of optical power.

PLC Splitter Modules are available in the form of either plastic module cassette (an ABS box) with ruggedized fiber jackets of 2mm and up to 3mm, or LGX metal box for plug and play splitter ...

With its compact structure, stable optical characteristics, robust performance and reliable certification, FS PLC splitter solutions strengthen your network infrastructure and facilitate smooth communication ...

The 1×64 Singlemode ABS Box PLC Splitter is a high-density optical power splitter designed to divide a single input fiber into 64 uniform output channels with exceptional precision and reliability.

1-to-64-core optical splitter box
