10 Gigabit Fiber Optic Single-Mode Fiber

The 10 Gigabit Singlemode SFP+ Transceivers provide high-performance, reliable connectivity for modern 10 Gigabit Ethernet (10GbE) networks. These transceivers are designed for singlemode ...

This SFP module is designed to work with the Networx® 10 Gigabit Media Converter box. The creation and standardization of the SFP allows for a single product to extremely flexible and allow for the ...

The Intellinet Network Solutions 10 Gigabit Fiber SFP+ Optical Transceiver Module (model 507479) is fully hot-pluggable, and that allows you to install the module without rebooting your network switch ...

The Intellinet 10 Gigabit Fiber SFP Optical Transceiver Module (model 507479) is fully hot-pluggable, and that allows you to install the module without rebooting your network switch for ...

Performance issues with standard single-mode fiber can become more significant as higher data rates (such as 10 Gbps) and longer distances (>40 km) are encountered.

SFP+ BiDi 10G is a 10-gigabit optical transceiver technology designed to transmit and receive data over a single strand of single-mode fiber, making it an efficient solution for modern fiber-constrained ...

The 10G Base LR SM SFP 40km is a 10 Gigabit Ethernet single-mode SFP+ transceiver with an LC style connector.bDesigned for extended long-reach (LR) applications up to 40km, it''s compatible with ...

Looking for a cost-effective SFP+ solution that enables higher port densities and greater bandwidth? Choose the 1310-nm Singlemode SFP (LC) 10G optical transceiver, which transmits and receives ...

TESTED FOR COMPATIBILITY: Hot-swappable in MSA Compliant routers and switches; DDM support reports the transceiver''s status to most SNMP network management tools.

The Cisco 10GBASE SFP+ modules give you a wide variety of 10 Gigabit Ethernet connectivity options for data center, enterprise wiring closet, and service provider transport applications.
