

3BM beam splitter

Our expert technical staff will guide you through the many options we offer, ranging from custom split ratios, unique materials, and custom coatings to unusually large or small dimensions.

Excelitas offers a wide array of beamsplitters in plate, cube and custom multi-port configurations. Utilizing our proprietary adhesive-free Activated Covalent Bonding (ACB) technology, we produce ...

Beam splitters are devices for splitting a laser beam into two or more beams. There are different types, including polarizing and non-polarizing versions.

Beamsplitters are optical components used to split input light into two separate parts. Beamsplitters are common components in laser or illumination systems. Beamsplitters are also ideal for fluorescence ...

3MTM Polarized Beam Splitter (PBS): PBS Film 1000 3M Display Materials and Systems Division 3M Center, St. Paul, MN 55144-1000, USA 1-888-3M HELPS (1-888-364-3577) RDSs are available at ...

Our expert technical staff will guide you through the many options we offer, ...

Thorlabs offers a wide range of optical beamsplitters. Our plate beamsplitters have a coated front surface that determines the beam splitting ratio while the back surface is wedged and AR coated in ...

3MTM Polarizing Beam Splitter (PBS) Film 1000 3M PBS Film 1000 is designed for superior performance in augmented reality waveguide projection systems, optimizing throughput efficiency, ...

Our beam splitters are made from high grade glass material with laser grade surface flatness & surface quality for tighter tolerance on the splitting ratio.

For many years, Lambda Research Optics has been reputable in providing a vast range of quality beamsplitters. They range from cube, circular, and plate beamsplitters for polarizing or non-polarizing ...

Shop DigiKey's large in-stock selection of Beamsplitters. View inventory, pricing and order now for same day shipping!
