

850 Optical Attenuator

The Thorlabs VOA850-APC SM Attenuator is an in-line optical attenuator designed for use with single-mode fiber at a wavelength of 850 nm. This attenuator features a rugged, compact ...

Precise and reliable fixed and variable fiber optic attenuators for optical power control. SC, ST, LC, FC, SMA connector types and In-line, washer types, and more.

Customer-Inspired Product! Two year warranty. Incorporated light sources are warrantied for the lesser of one year or (to the extent applicable) the number of hours stated in the ...

BeamQ Laser 850nm Collimator Variable Optical Attenuator - 850nm Collimator Variable Optical Attenuator
Wide attenuation range High precision Low original loss Compact size Optical ...

Multimode Manual Variable Optical Attenuator (MVOA,850/1310nm) is a fiber optic attenuator to set attenuation levels in the range of 0 to 40 dB.

850nm Multi-mode In-line Adjustable Attenuator VOA Can be Customized. Ordering Information.

Whether used in data centers, telecommunications, or fiber optic testing, our 850nm Multimode In-Line Variable Optical Attenuator (VOA) offers precision, reliability, and high performance to optimize your ...

Description: 850nm SM Mechanical Variable Optical Attenuator, P grade, Standard size, 1.0m 780-HP Fiber with 0.9mm OD loose tube, and FC/APC connectors at all ports.

Get product specifications, Download the Datasheet, Request a Quote and get pricing for 850nm PM Fixed In-line Optical Attenuator on GoPhotonics.

The 850nm single mode Mechanical Variable Optical Attenuator is a useful tool for the optical components and systems test. The SM Manual Variable Optical Attenuator is designed and ...
