

ASEAN ADSS optical cable pre-twisted suspension clamp

Installation scope: The optical cable should be led down straight and aesthetically pleasing, and a fixed fixture should be installed every 1.5m-2m to prevent friction between the optical cable and the tower.

This product is a combination of wire clip, equipped with two sets of aluminum splint, two sets of rubber fixture, a set of outer pre-twisted wire and a set of wire protectors pre-twisted wire.

According to the model and parameter requirements of ADSS optical cables, we can provide suspension clamps with different pitches, tensions, and outer diameters, which are divided into tangent clamps ...

ADSS suspension clamp is a heavy duty, versatile, and reliable solution for securely suspending ADSS (All Dielectric Self-Support) aerial fiber optic cable. The versatility of the clamp allows the installer to ...

Meanwhile we accept customization!Product description:The suspension clamp of ADSS optical cable is mainly used for the suspension cable ...

ADSS Optical Cable Suspension Clamp Model Specifications (Double-layer Pre-twisted Wire Design; Clamp Breaking Strength Not Less Than 70 kN; Grip Force Not Less Than 15% of the Optical ...

AS-FTTH-ACC-16E-3 Product Name: ADSS optical cable suspension clamp, pre twisted suspension clamp J-type suspension clamp fixing fixture

The Pre Twisted Suspension Clamp is a specialized hardware component designed for overhead power transmission and ADSS fiber cable. It is engineered to securely hold and support pre-twisted ...

Pre-Twisted Suspension Set for ADSS Optical Cables. 1. Definition. Suspension Set for ADSS is a connecting fitting for suspending ADSS cable on transmission line tower. *Break Strength: 40kN, ...

Meanwhile we accept customization!Product description:The suspension clamp of ADSS optical cable is mainly used for the suspension cable on the overhead self-supporting ADSS optical ...
