

Application of High-Quality Laser Diodes from Ireland

SUPERLUM is the first commercial company that focused on SLDs as a core product. For 25 years we. including Avionics, Healthcare, Industrial Sensing, Atomic Microscopy and Fiber-Optic Sensors. We ...

Find a huge range of Laser Diodes at Farnell® Ireland. We stock a large selection of Laser Diodes, including new and most popular products from the world's top manufacturers including: AMS Osram ...

With wavelengths ranging from 790 nm to 1060 nm, our laser bars are designed to meet the demands of various applications. We provide a wide variety of form factors, fill factors (4% to 70%), and facet ...

The Laser Tech is promoting the products manufactured by the Eblana Photonics Limited in Dublin, Ireland.Eblana Photonics Ltd is a leading manufacturer of laser diodes, laser gas sensors, Methane ...

Eblana Photonics specialise in the design and manufacture of DFB laser diodes, VCSELs, optical amplifiers (SOA), and superluminescent diodes, offering a range of wavelengths from 630 nm to ...

Based in Dublin, Ireland, our wide product range of single frequency DFB laser diodes, Quantum Cascade DFB lasers, VCSELs, superluminescent diodes (SLDs) and other optical sources are ...

The higher power level makes this IR laser diode ideally suited to virtual reality, augmented reality and depth sensing applications. Both diodes are available in three different pin configurations, providing ...

Due to sophisticated electronics, a wide range of laser diodes in terms of wavelength and output power levels can be used. In addition, the options found below in the table are also available for order and ...

Eblana Photonics specialise in the design and manufacture of DFB laser diodes, VCSELs, optical amplifiers (SOA), and superluminescent diodes, offering a range ...

From the design of standard and custom products through the manufacturing process and beyond, we are focused on delivering high-quality photonic solutions.

The rear facet of the laser chip is provided with a high reflection coating. The front facet of the laser chip is provided with a high quality antireflection coating for avoiding the Fabry Perot modes of the laser ...
