

Botswana Air-cooled Switch 1 6T

Celestica DS6001 1.6T switch is a 2OU hybrid-cooled data center switch with 64x1.6T OSFP224 ports, Broadcom; Tomahawk; 6, and Intel; Xeon; CPU.

Celestica plans to contribute the DS6000/DS6001 spec to the OCP Community and list them on the OCP Marketplace with the OCP Inspired(TM) recognition. The DS6000 is a 3RU, 64-port x ...

In response, the 1.6T switch developed by Alpha Networks adopted a liquid-cooled solution that delivers more than 1.8 KW of cooling on each liquid-cooled board. The smaller footprint and higher efficiency ...

The DS6000 is a 3RU, 64-port, air-cooled switch supporting 50/100/200/400/800 GbE speeds through OSFP interfaces, with 224 G SerDes lanes and options for forward or reverse airflow.

The DS6000 is a 3RU, 64-port x 1.6TbE data center switch for traditional air-cooled data center installations. The DS6001 is a 2OU, 64-port x 1.6TbE switch offering a hybrid cooled solution ...

The DS6000 is a 3RU, 64-port x 1.6TbE data center switch for traditional air-cooled data center installations.

The 1.6T switch from Alpha Networks employs a liquid-cooled solution that delivers more than 1.8 KW of cooling capacity per liquid-cooled board. The reduced footprint and higher thermal ...

To meet the even more demanding cooling challenges of tomorrow, Alpha Networks' 1.6T liquid-cooled switch will not only help customers deploy infrastructure with even higher ...

Celestica, a world leader in design, manufacturing, supply chain, and platform solutions, announced two new 1.6TbE data center switches DS6000 and DS6001 designed to address the high ...

You can see that the Delta DC-90640 is a 3U switch with 2U dedicated mostly to the 64-ports of 1.6TbE. Since this is air cooled, the top, and even some of the bottom is dedicated to ...
