

Central Asia Professional Temperature Measurement Optical Cable Model

The new generation of distributed optical fiber temperature measurement host developed by our company adopts system, which has the advantages of stable system, compact structure and low ...

Dongguan Guangjia Optoelectronics Technology Co., Ltd. specializes in the production and sales of temperature-sensitive optical cables, stress optical cables, and field optical cables.

The DTSX can provide uninterrupted, highly accurate measurements over long distances of up to 50 km using fiber optic cables, allowing real-time monitoring of temperature changes.

Monitor and detect Partial Discharge in switchgear and transformers. CElectromagnetic radiation immune, high voltage, RF, magnetic field compatible fibre optic temperature probes. Extension ...

The conductor temperature calculated by optical fibers at different radial positions.

As the distributed temperature sensing fiber optic cable (DTS Cable) allows temperature measurements to be taken along the entire length of the cable, temperature measurements can also ...

Reliable and versatile cable for easy installation. Small size and fast reaction to temperature changes. The Ordinary Temperature Sensing cable is a unique sensor for the evaluation of distributed ...

Monitor and detect Partial Discharge in switchgear and transformers. CElectromagnetic radiation immune, high voltage, RF, magnetic field compatible ...

Sistemi Cavo HT is a high temperature electrical control cable that exhibits an electrical resistance of 2000 Mohm x km at 20 °C with maximum operating voltage of 600 V.

Distributed fiber optic temperature measurement system for cables. The temperature monitoring and over temperature alarm of cables in cable trays and cable trenches can be carried ...

Inside the asset (ex. transformer tank) What do you need to build up the right fiber optic system for continuous and accurate direct temperature monitoring?
