

# Cold aisle fixed equipment manufacturer for rack power distribution system

Keep your server rack aisles cool to prolong network equipment life and data center efficiency. Full scale aisle containment solutions. Modular kits for every edge-of-network application.

Hot and cold air containment systems designed to maximize cooling predictability, capacity, and efficiency at the rack, row or room level. Get flexible and cost-effective rack and containment ...

Whether ceiling hung or integrated with aisle structure, our containment solutions are manufactured on our dedicated lines for quality, accountability, and fast lead-times.

With cooling provided through a raised floor, this cold aisle containment project uses rigid wall panels in conjunction with the Polar Cap 2 roof system to provide containment in aisles with missing rows.

The Contain-IT FLEX system is comprised of stock components that are assembled to create containment systems. The components can be assembled on site to create hot or cold aisle ...

Cool Shield(TM) products provide customers with versatile, turnkey aisle containment systems for new or existing critical spaces. Our offerings range from a single row in a server room to entire data center ...

The SmartAisle offering optimizes infrastructure deployment and management with an intelligent row-based system that integrates data center racks, power, row cooling, aisle containment, monitoring ...

The industry leading Cool Shield Aisle Containment Solution is the most versatile and cost effective data center aisle containment solution. Our proprietary aluminum frames provide maximum design ...

Cold Aisle Containment isolates the cold air, preventing it from mixing with the hot air. To enclose the cold aisle between adjacent rack rows, Aisle Containment Doors are combined with an overhead ...

Custom engineered hot and cold aisle containment solutions that keep your data center running smoothly -- and make your build-out be more efficient, too.
