

Columbia Tubular Busbar

Busbars are metal bars that can be composed of numerous alloys but are most commonly copper or aluminum. Typical busbar applications include switchgear, panel boards, power invertors, powered ...

Choose from our selection of copper bus bars, including over 650 products in a wide range of styles and sizes. Same and Next Day Delivery.

RHI stands as a leading Copper Busbar supplier, offering high-quality copper busbars that excel in superior electrical conductivity, efficient thermal management, and exceptional durability.

These grounding bus bars are highly customizable, featuring a variety of hole and slot patterns to meet specific project requirements. Burndy offers custom bus bar lengths up to 12 feet, allowing for tailored ...

Hot rolled rectangular steel tubing is a versatile solution for various industrial applications. With numerous sizes and wall thickness options, rectangular steel tubing provides enhanced strength, ...

Available in copper and aluminum, sheet, bar and rod form options. Feature braided cables that provide flexibility. Available in rounded rope braids that offer 360-degree movement. They are often used in ...

Lightweight, easy to machine, and corrosion resistant--all with material certificates for traceability. Choose from our selection of bus bars, including over 650 products in a wide range of styles and ...

For enhanced performance, we offer tin-plated copper bars, providing superior corrosion resistance and improved solderability. To guarantee optimal performance, our copper flat bars undergo rigorous ...

Unlike traditional flat or solid copper busbars, hollow copper tubular busbars reduce weight while maintaining excellent conductivity, making them ideal for industrial copper busbar ...

For enhanced performance, we offer tin-plated copper bars, providing superior corrosion resistance and improved solderability. To ...

We provide sales, engineering and manufacturing support from our facilities in North America, Europe and Asia. Our experienced teams of applications engineers, supported by our regional design ...
