

Communication cable single-mode pigtail fully equipped

Due to our fully equipped production facilities, laboratories and long-term expertise in fiber optics, we are able to produce a first class fiber optic assemblies portfolio that ensure the highest level reliability.

We carry Fiber Optic fusion splicers, cleavers, OTDRs, cables, panels, laser sources, power meters, and many other Fiber Optic products for any project.

This pigtail set consists of 12 single-mode fibers, each in different colors, allowing for easy installation and management. All pigtails offer low insertion loss and high return reflection performance, ...

Techlogiks Single Mode fiber pigtails are available in a variety of colours to complement any network, custom configurations and performances. Full choice of available connector types like ...

They provide a fast way to make communication devices in the field. Built to deliver a stable and robust fiber optic network, these OS2 bend-insensitive pigtails feature a high-quality tight-buffered design ...

This FC pigtail is a single-mode cable with high-grade FC APC fiber optic connector on one end, another end unterminated. Pigtail can configure single mode or multimode fiber for the specific application.

The Haile 12LC-S1.5 bundle pigtail comes fully equipped with a flange splitter box and ODF distribution frame, providing a robust and reliable platform for fiber optic connectivity.

Single Mode Fiber Patch Panel. Structured cabling is the passive infrastructure that supports the transmission of data, voice, and video signals in a building or campus. It consists of various ...

Pigtails are used for non-permanent connections in patch panels, transmission equipment etc. Factory assembled pigtails allow for high quality termination of a network.
