

Composite Metal Cable Trays

Our cable trays and ladder systems are made from combining fiberglass and resins that are resistant to corrosion, fire, and electrical conductivity - making them ideal for use in a variety of industries ...

Learn how composite cable trays reduce corrosion, improve safety, and lower lifecycle costs in demanding industrial environments.

Explore sheet steel and wire mesh cable tray for robust cable management. Ideal for various environments, ensuring safety, efficiency, and durability.

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Composite cable trays provide reliable cable support in corrosive environments where metal trays fail prematurely. Our systems are ideal for chemical plants, wastewater facilities, and coastal ...

Designed for modern industrial demands, our trays offer exceptional corrosion resistance, high strength-to-weight ratio, and fire-retardant properties--making them ideal for harsh or mission-critical ...

Made from the highest quality pultruded materials, our Fiber Reinforced Polymer (FRP) cable tray is extremely durable and resistant to chemical attack, with a proven record of performance in the most ...

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative cable trays systems available.

Built using premium resins and advanced manufacturing techniques, our trays provide secure cable routing, withstand extreme weather, and require minimal maintenance--making them the ideal ...

Custom manufacturer of cabletrays made from aluminum, fiberglass reinforced plastic (FRP), galvanized and stainless steel materials. Suitable for supporting insulated electrical cables.
