

Croatia purchases 100G of optical modulators

Ekinops (Euronext Paris - FR0011466069 - EKI), a leading supplier of advanced optical transport systems and access network solutions, today announces United Group has chosen Ekinops" ...

NEL, a leading supplier of coherent Digital Signal Processor (DSP) solutions to system and module manufacturers worldwide, provides key components for 100G-and-beyond coherent transceivers, ...

The agreement also covers joint development. The centerpiece of the deal is HHI's polarization multiplexed I-Q modulators for 100G coherent applications.

Learn how 400G, 800G, 1.6T, and 3.2T optical transceivers--powered by silicon photonics and CPO--are updating AI, cloud, and hyperscale networks.

ADVA Optical Networking and the Croatian government's national electricity company, Hrvatska Elektroprivreda (HEP Group), today announced the country's first deployment of 100G technology.

With this transaction, Finisar and u²t obtain immediate and exclusive access to HHI high speed InP modulators, including polarization multiplexed I-Q modulators for 100G coherent applications.

The two companies - in collaboration with their ITeRATIO - conducted a successful 100G deployment over a distance of more than 400km between the Croatian cities of Zagreb and Split.

With this transaction, Finisar and u (2) t obtain immediate and exclusive access to HHI high speed InP modulators, including polarization multiplexed I-Q modulators for 100G coherent applications.
