

Custom SFP Optical Transmitter

Deploy next-gen 50GbE networks. Our 50G SFP56 transceivers utilize PAM4 technology for 5G fronthaul, available in tailored SR, LR, and ER variants.

Discover professional OEM & ODM services for fiber SFP Modules. From customized optical transceiver design to ready-made rebranding solutions, we deliver high-quality, certified, and ...

Dual channel SFP optical transmitter using standard 1310nm lasers with one loop out per channel. Non-reclocked, with support for 3G, HD, SD and ASI plus other rates such as MADI.

For example, by simply replacing the pluggable optical transceiver, a media converter that was originally used in a multimode network can be re-configured to operate over a CWDM network. Perle SFP ...

From legacy 1G SFP uplinks to hyperscale 800G OSFP AI clusters, our modules are built on MSA standards and powered by top-tier DSP chips (Broadcom/Inphi). We offer a cost-effective alternative ...

Upgrade your network switches with various Customized SFP+. Guarantee compatibility with Cisco, Arista, HPE and more. Save 80%, Fast shipping & 5-year warranty.

To use the less than or greater than function, please select a value first. Pricing (USD) Filter the results in the table by unit price based on your quantity. A tariff of 28% may be applied if shipping to the ...

For example, by simply replacing the pluggable optical transceiver, a media ...

With well-equipped lab, all FS custom optical transceivers are produced with high-quality components, offer a five-year warranty and fast shipping. Purchase from nearby warehouses. 30-Day Free Return.

Our engineering team works directly with customers to design and produce custom SFP modules, QSFP transceivers, and other optical components. Custom orders typically ship within 2-4 weeks, and we ...

SFP transceivers are valued for their flexibility, low power consumption and ability to support both single-mode and multimode fiber, making them ideal for short-range and long-haul optical transport.
