

Custom-made Multimode 10 Gigabit Optical Modules

SFP+ transceiver that supports 10G connections up to 300 m using multi-mode fiber with a duplex LC UPC connector.

10Gtek's SFP+ Active Optical Cables are hot-swappable, low-voltage cable assemblies that connect directly into SFP+ modules at both ends.

This innovative solution enables more simplified and reliable edge and data center networks aligned with a standards-based ecosystem and can help eliminate separate full-function optical transceiver boxes, ...

Our 10G SFP+ transceivers are 100% compatibility tested in our US based lab, and certified for use with over 90 OEMs including Arista, Cisco, Dell, Intel, Juniper, Mellanox, Nokia. Free evaluations and ...

This 10 Gigabit network extension kit has everything you need to extend your local area network or internet connection to a distant location that is too far for Ethernet ...

Click to get your 10G SFP+ transceiver modules from nearby warehouses. 30-Day Free Return. Trusted by 260K+ Enterprise Users.

Multi-vendor coding options available for your 10GB Ethernet requirements. Available in Multimode, Single Mode, Extended Range, Long Reach Multi-mode & Copper. In addition to GBICS codable ...

Order fully customized 10GBASE-SR SFP MODULE units from Wolon. Tailored multimode optical budgets, bespoke vendor coding, and high-density performance.

This 10 Gigabit network extension kit has everything you need to extend your local area network or internet connection to a distant location that is too far for Ethernet cabling.

10G SFP+ Optical Transceiver Modules connect 10G TCVRs and the 10G CBOX with 10G network switches and facilitate stacking MXNET 1G SW24/48 network switches. Available as single-mode, ...

Supports 10 Gigabit Ethernet over multimode fiber (MMF) for high-speed data transmission. Operates at a wavelength of 850nm, ideal for short-range applications. Provides transmission distances up to 300 ...
