This production line is equipment for production of distribution boxes. The strip coil to be processed is manually placed on the uncoiler, and then corrected and tensioned.

This document provides a list of components in an electrical distribution box with their names and associated wiring diagrams. It includes tables of diodes, fuses, relays, and other components like ...

Wiring diagram shows both PNP and NPN wiring. Actual units use PNP status indicator, NPN status indicator, or neither. Dimensions are shown in mm (in.). 10 [10 m (32.81 ft)] for standard cable ...

Using this drawing, you can accurately plan your component layout, ensure proper clearances for heat dissipation, and optimize cable entry points. It eliminates costly design errors and ...

General Technical Particulars for LT Distribution Boxes : - The L.T. Distribution Boxes should be of the dimensions as per the drawing & details in the table furnished.

By reading the distribution box system diagram, you can understand the electrical connection and configuration of the distribution box, which provides a strong guarantee for the safe ...
