

# Emergency Communication Hot-Swappable Power Distribution Unit 4U

The S4K4UC design of two 3 kVA, 120 V inverters allow flexible output voltage to meet mixed load voltage requirements. The UPS automatically configures the output voltage to match the input ...

The 3 kW unit delivers high power density in a compact 2U rack with a hot-swap battery drawer, enabling removal of the battery maintenance without downtime. For higher power or longer runtime, ...

Includes main power off/on switch, plus 2 switches to set and execute scrollable LCD functions. A manual bypass switch featured on the detachable PDU allows for complete removal of the UPS ...

**MODEL NUMBER:** SU6000RT4UHVPM Highlights 6000VA on-line 4U rack/tower hot-swappable replacement power module Ideal for use as a spare or replacement power module for mission-critical ...

The 9PX6KSP fits into just 4U of rack space and provides reliable battery backup and AC power protection against blackouts, brownouts, surges and line noise that can damage valuable IT ...

The unit requires only 4U of rack space in a standard rack enclosure and can be installed in a 2-post rack using the 2POSTRMKITHD accessory or in a tower configuration with the 2-9USTAND accessory.

The Xtreme Power M90C is a drop-in replacement for Eaton BladeUPS, offering hot-swappable modular design, unity power factor, higher energy efficiency, and complete scalability from 5kVA to 60kVA.

The 9PX6KSP fits into just 4U of rack space and provides reliable battery backup and AC power protection against blackouts, brownouts, surges and line noise that ...

The AC or DC power supply cards for the 4U chassis are hot-swappable and located on opposite ends of the chassis. Power supply cards are dual load-sharing and ...

Maintains battery-derived AC output during blackouts with active, full-time power conditioning. Fault tolerant auto-bypass prevents unexpected service interruptions during overload or internal fault ...

With its detachable PDU, the SU6000RT4U is easily hot-swappable by a user of any skill set--no need for lengthy and expensive service calls, and no downtime if a repair or battery replacement is needed.

Input cord and outlets are mounted on a detachable backplate with manual bypass switch to enable hot-swappable UPS replacement without powering off connected equipment

# Emergency Communication Hot-Swappable Power Distribution Unit 4U

The new SolaHD S4K4U6000C and the S4K6U10KC Industrial UPS Series are the first true On-Line industrial UPS that provide higher output power factor, higher efficiency, flexible output voltage, an ...

With its detachable PDU, the SU6000RT4U is easily hot-swappable by a user of ...
