

Energy-saving distributor of adjustable attenuators for mining applications

GAO Tek's attenuators regulate optical power by introducing defined loss into fiber lines, ensuring stable transmission and preventing BER degradation in high-capacity networks.

VIAVI offers the industry's most complete range of optical attenuators for installation and maintenance of singlemode and multimode fibers and advanced, photonic-layer solutions for lab and production ...

Programmable Rotary Vane Attenuators are available in full waveguide bands from 7.0 to 220GHz. Our latest 511 Version 2 is filled with new features, upgrades and capabilities that simply make it one of ...

Mining Controls is a brand represented within Elgin Group, an equipment manufacturer and innovative turn-key solutions provider for mining, oil & gas, waste management, water and power industries.

Mini-Circuits is a global leader in the design and manufacturing of RF, IF, and microwave components from DC to 86GHz.

The new line of higher power attenuators from Pasternack includes a wide range of attenuation and connector options. These 100 Watt attenuators come in 3dB, 6dB, 10dB, 20dB, 30dB, 40dB and ...

Eravant is a US based manufacturer & supplier of Attenuators from 0.00 to 330 GHz.

Built to handle high power and harsh environments, our attenuators help prevent overload, reduce reflections, and maintain system performance without compromise.

Protect your First Responders with the safest, most reliable truck mounted and towable attenuators available today. Over 2,000 documented hits involving Scorpions and thousands of lives saved ...

At Minetek, our Generator Attenuators stand as a pinnacle of innovation and reliability in noise management solutions for industrial and mining sectors. Meticulously engineered to address the ...
