

Fiber Optic Cable Bandwidth Testing Equipment Manufacturer

Since 1979, Photon Kinetics has pioneered preform, optical fiber, cable, and component testing. Today, leading fiber manufacturers, cable producers, and research laboratories trust our cutting-edge ...

Manufacturer of fibre optic cable testers and inspection instruments. Products include domain reflectometers, laser and LED light sources, inspection scopes, portable access devices, ...

Through technology innovation and extensive experience, our fiber testers equip technicians and network managers to ensure the performance of their fiber optic networks with fast and intuitive fiber ...

Fluke Networks is a market leader in enterprise fiber testing equipment, with a wide range of field-tough fiber testers to help you inspect, clean, verify, certify, and troubleshoot your fiber optic cable networks.

Fluke Networks has a wide range of Fiber Optic testing products to help certify that power losses are within standards and to troubleshoot broken and high loss links on single-mode and multimode fiber ...

Joinwit offers reliable fiber optic test equipment and tailored solutions for telecom networks, data centers, and research institutions. We provide equipment customization, installation support, and ...

Telecom Test Tools provides advanced telecom and carrier-grade test equipment to meet the evolving needs of network providers, service integrators, and enterprise IT teams across North America.

Pioneering Optical Instruments Santec has more than 45 years of experience designing and manufacturing fiber optic test systems. Developed by fiber optic engineers for fiber optic engineers.

AFL has a complete range of fast, easy-to-use tools that inspect and clean fiber endfaces. Using them consistently eliminates the #1 cause of network outages - ...

OWL manufactures a complete line of fiber optic test equipment for a wide range of applications, including telco, WAN, MAN, LAN, SAN, CATV, IT, manufacturing, and laboratory.

AFL has a complete range of fast, easy-to-use tools that inspect and clean fiber endfaces. Using them consistently eliminates the #1 cause of network outages - dirty connectors. Visual fault locators and ...
