

# Fiber Optic Cable Terminal Machine

Our kits provide all the essentials for seamless termination of fiber optic cables with ST, SC, FC, or LC ends, ensuring compatibility with a range of connectors.

Find professional-grade fiber optic termination kits equipped with visual fault locators, strippers, and precision tools for network setup.

This comprehensive kit includes all the essential tools required to ensure precise and reliable terminations, whether working in the field or in a controlled environment.

CommScope features a family of tools and components for the installation, repair and maintenance of fiber cables, including prep and termination kits.

Our fiber optic strip tool prepares your fiber optic cable for termination to OmniSplice(TM) fusion splice connectors. Ergonomically designed, it reduces the need for angling during fiber stripping.

FS Fiber Termination Kits (Fiber Splice Tray, Protection Sleeves, Fiber Connectors, Ferrules, Sleeves, etc) achieve faster fiber termination and higher performance.

Whether working in a local area network (LAN), data center, or office, tools in this collection can clean, cut, inspect, measure, strip, and terminate your fiber cables.

Specialized Products features a variety of fiber optic termination kits designed to assist telecom technicians in the field with fiber preparation and connector termination.

Industry-standard and Glenair signature installation and maintenance tooling, workstations, and kits for factory and field fiber optic termination and troubleshooting.
