

Free quote for upgraded coherent optical modules for base stations

Ideal solution for long-haul metro DCI and 5G backhaul applications.

Coherent Transceivers are widely used for long-haul, metro, and data center applications. We offer 100G to 400G with different modulation schemes - AscentOptics.

FS 200G/400G Coherent CFP2 optical transceiver module solutions offer a full range of CFP2 modules 80km reach. Purchase from nearby warehouses. 30-Day Free Return. Trusted by 260K+ Enterprise ...

With the improvement of the single-channel transmission rate, more and more application scenarios in the field of modern optical communication begin to use coherent optical transmission technology.

We offer a universal optical module that can be installed in any network device from any manufacturer.

Get the pluggable module performance you need from the manufacturer of choice for all major networking equipment vendors worldwide.

Enhance your network with coherent optical transceivers for 100G, 400G, and 800G solutions. Ideal for DWDM systems, data centers, mobile base stations, and enterprise networks.

Cisco Transceiver Modules - Learn product details such as features and benefits, as well as hardware and software specifications.

GIGALIGHT provides 100G, 200G, and 400G pluggable digital coherent optical transceiver modules (DCO) for data center interconnection (DCI), 5G backhaul, metro telecommunication, and other long ...

We offer solutions for 1T, 600G, 400G, 200/100G DSP IP cores for coherent high data rate networks. Our coherent optical solutions can be delivered in advanced technology nodes, including 16nm, 14n, ...
