

Guyana Temperature Sensing Cable Terminal Box Factory

At Trillium Guyana, we provide precision measurement and automation solutions tailored to support Guyana's rapidly expanding energy and natural resources sector.

RS232 USB data logger cable is a cable that combines RS232 and USB interfaces, used to connect data loggers to computers, such as temperature sensors, humidity sensors, etc.

The box allows connection of one or two control cables, up to three temperature sensors and input through thermal insulation of up to four temperature sensors (one reserved). The enclosure design ...

The NTC Ring and Epoxy Coated Temperature Sensor Cable Assemblies include a ring terminal, thermal conductive epoxy and/or a Micro-Lock PLUS connector to deliver a market-ready solution for ...

At Indesco, we are proud to be a leading company in Guyana, specializing in providing top-quality industrial equipment and solutions. With a strong focus on fluid measurement and handling, we cater ...

Ensure safe and efficient power distribution with our wide range of Cable Lugs, Terminals & Connectors. Durable construction for long-lasting performance Wide variety of sizes & types to meet every need ...

Historical Data and Forecast of Guyana Temperature Sensor Market Revenues & Volume By Food & Beverages for the Period 2020-2030 Guyana Temperature Sensor Import Export Trade Statistics

Description Features: Coil and ambient temperature sensor. NTC temperature sensor kit - thermistor (2 pcs copper & epoxy coated).

Find your temperature sensing cable easily amongst the 4 products from the leading brands (Brugg, Hot Disk, TEMPESENS, ...) on DirectIndustry, the industry specialist for your professional purchases.

Ashcroft is our global partner of choice for the most innovative and well-crafted pressure and temperature instruments. Closely working with this esteemed OEM, we develop Custom Engineered ...
