

High Temperature Resistant SN Connector for Campus Network

While a standard 19" 1U panel can accommodate up to 144 fibers with LC connectors, utilizing SN cords within the same footprint triples the capacity to ...

Discover SENKO's high-density SN fiber optic connector for both single mode and multimode applications. Increase your network efficiency with ...

SN Connectors enable high-density duplex fiber connections for next-gen networks, requiring specialized fixturing/tooling for precise assembly. Learn more.

Featuring a compact and durable design, the SN connector supports 1.6mm or 2.0mm round cables, providing ruggedized protection and strain relief.

Connect to a broad range of SN-compatible transceivers and enjoy data rates of 400G, 800G and even 1.6TB. SN links require no cassettes or fan-outs to transition from Base-8 to Base-2, allowing ...

While a standard 19" 1U panel can accommodate up to 144 fibers with LC connectors, utilizing SN cords within the same footprint triples the capacity to an impressive 432 fibers. Siemon's ...

MDC & SN connectors are designed for optimal stability exceeding the requirements of Telcordia GR-326 for carrier or data center applications. This solution reduces installation and operating costs ...

The SN adapters (also by SENKO) are ideal for those who want to upgrade their existing systems to SN hyper-density without redesigning new panels or hardware. Each adapter will double ...

The SN(TM)-MT is a next-generation multi-fiber connector, that carries a maximum of 32 fibers in double rows ferrule contained within a regular SN(TM) connector footprint.

Choose from our selection of high-temperature wire connectors, including over 200 products in a wide range of styles and sizes. Same and Next Day Delivery.

The density of SN and SN-MT connectors allows operators to reduce the number of transceivers, switches, power-consumption, and racks needed to operate their data centers or telecom exchanges.

Discover SENKO's high-density SN fiber optic connector for both single mode and multimode applications. Increase your network efficiency with SN connectors.
