

# Huawei Core Switch 7703s

Using innovative energy-saving chips, the S7700 provides an industry-leading solution for a sustainable energy-saving network. The S7700 series is available in five models: S7703, S7703 PoE, S7706, ...

The document is a datasheet for the S7700 series of smart routing switches from Huawei. The S7700 series offers intelligent services like MPLS VPN, traffic analysis, QoS policies, load balancing and ...

S7703 PoE Routing Switch is designed for next-generation enterprise networks. It supports two Main Control Units (MCUs), three Line Processing Units (LPUs), and AC or DC power modules in 1+1 ...

The S7703 switches are high-end smart routing switches designed for next-generation enterprise networks. 1. Agile features supported in V2R5C00 and later versions. 3. Hardware BFD and Ethernet ...

The S7700 series design is based on Huawei's intelligent multi-layer switching technology to provide intelligent service optimization methods, such as MPLS VPN, traffic analysis, comprehensive HQoS ...

S7700& S8700& S9700& S12700& S16700 Series S7703: Access product manuals, HedEx documents, product images and visio stencils.

The S7700 can function either as an aggregation or core node on a campus network or in a data center to provide integrated wireless access. The S7700 also offers voice, video, and data services, helping ...

Based on intelligent multi-layer switching technology, the S7700 series provides MPLS VPN, service flow analysis, and improved HQoS policies and control groups based on the stable, reliable, and ...

S7703 PoE Routing Switch is designed for next-generation enterprise networks. It supports two Main Control Units (MCUs), three Line Processing Units (LPUs), ...

They provide 100 GE ports, support SVF 2.0, and have superb scalability and reliability. Uses a fully programmable architecture, enabling new services to be flexibly and quickly provisioned within six ...
