

Hungarian Industrial Switch 800G

The LNX-C800G has everything you should expect from a heavy-industrial switch. Advanced surge and spike protection, DIN-rail mounting, broad operating temperature range, and redundant power inputs ...

For the most demanding environments, the 800G routing and switching platforms provide flexibility and choice for large scale cloud, AI, leaf and spine, routing transformation and hyperscale IO intensive ...

Discover 800G Ethernet technology and FS 800G AI switches, delivering ultra-high bandwidth, low latency, and lossless performance for AI/ML clusters, HPC, and cloud data centers.

Datacenter - 400G / 800G Network switch As data centers continue to evolve, the demand for higher bandwidth and faster network speeds will drive further advancements in the electronic components ...

The industrial-grade design and compact size of the LNX-C800G series makes this the ideal unit for integration into projects or other applications that need a small footprint. The LNX-C800G series ...

Watch the video to learn how DS5000 delivers consistent, high-performance and low latency, helping you stay ahead of the demands of today's evolving digital landscape.

A locking guard can be added over our Emergency Stop push-pull and a locking cover can be selected for push button and selector switch operators. Up to three 800G enclosures can be "ganged" ...

Antaira Technologies' LNX-C800G series is a compact 8-port industrial Ethernet switch. The small form factor of this metal IP30 rated industrial switch is 30% smaller allowing for a more versatile ...

800G Data Center Switch SNK-60x0-320F Key Features o AI Data Center Switch o 32 x 800G OSFP o 1 x 25G SFP28 inband management port o 1 x RJ-45 Out-of-Band (OOB) management port o 1 x USB ...

With dual power inputs and plug-and-play installation, the IGS-800T-PN is a robust solution for smart factories and IIoT infrastructures that demand stable and real-time network performance.

Hungarian Industrial Switch 800G
