

Industrial Ethernet Four-Port Information Panel

H3C IE4320-EI series industrial switches implement a variety of green energy saving features, including auto-power-down (port automatic energy saving). If the interface status is always down for a period, ...

Installation of the 4-port PoE+ switch is flexible with options like DIN rail, stand-alone, or panel mounting, which makes it ideal for applications where efficiency and space are critical.

Suitable for buildings where security is strictly enforced, the IGS-614HPT, with four Gigabit Ethernet 802.3at PoE+, in-line power interfaces, can easily build a power that can centrally control an IP ...

The 4-Port Gigabit Ethernet PoE+ Industrial Switch with 2 SFP Ports from Intellinet Network Solutions was designed to give you the network connections and device power you need in places that are ...

Power terminal is removable with numbered pins for easy wiring. Power consumption is optimised based on the status of the link device. No software required. Ideal for factory floor, in vehicle and marine ...

Power terminal is removable with numbered pins for easy wiring. ...

AXIS T8504-R Industrial PoE Switch is a 4-port managed industrial PoE Gigabit switch. In addition, the switch is equipped with two RJ45 and two SFP data ports that allows for extra devices to be connected.

The N-TRON® 304TX is an unmanaged four port Industrial Ethernet Switch. It is housed in a ruggedized DIN-RAIL enclosure, and is designed for use in industrial data acquisition, control, and Ethernet I/O ...

The KSZ8794CNX is a highly integrated, Layer 2-managed, four-port switch with numerous features designed to reduce system cost. It is intended for cost-sensitive applications requiring three 10/100 ...

Complying with the IEEE 802.3bt Power over Ethernet Plus Plus technology, PLANET's improved IGS-5225-4UP1T2S L2+ Industrial Managed PoE++ Switch features four 10/100/1000BASE-T 802.3bt ...

The 4-Port Gigabit Ethernet PoE+ Industrial Switch with 2 SFP Ports from ...

This space-saving switch transmits data over a Gigabit Ethernet network. Four auto-negotiating 10/100/1000 Mbps ports send data via Cat5e/6/6a cable only to the devices designated to receive it, ...

Under the global trend of energy saving and contributing to environmental protection, the IGS-4215-4P4T2S

Industrial Ethernet Four-Port Information Panel

can effectively control the power supply besides its capability of giving high watts power.
