

Overview Routers Network switches Wireless Network interface card Server appliance Networking hardware typically refers to equipment facilitating the use of a computer network. Typically, this includes routers, switches, access points, network interface cards and other related hardware. This is a list of notable vendors who produce network hardware.

Networking hardware typically refers to equipment facilitating the use of a computer network. Typically, this includes routers, switches, access points, network interface cards and other related hardware. ...

Industrial Ethernet Switch Companies redefine industrial connectivity. Explore innovations and key players shaping the future of Ethernet switches in industrial settings.

Find your industrial network switch easily amongst the 1,106 products from the leading brands (Hilscher, PLANET, Volktek, ...) on DirectIndustry, the industry specialist for your professional purchases.

The company is recognized for its high-quality industrial Ethernet switches, which are known for their durability, reliability, and compatibility with mission-critical applications in diverse ...

Our portfolio of high-performance, small-footprint, full-featured Ethernet switches offers robust, innovative features for high-temperature operation.

Maisvch is a leading manufacturer of industrial networking products, including rugged Ethernet switches, gateways, routers, media converters, serial/fieldbus devices.

Additionally, with multiple industrial certifications, our industrial Ethernet solutions not only provide the highest network reliability for Ethernet hubs and network switches to meet current industrial ...

This section provides an overview for industrial ethernet switches as well as their applications and principles. Also, please take a look at the list of 19 industrial ethernet switch manufacturers and their ...

Industrial-grade Ethernet Switches are specifically designed to connect devices in network environments that are subject to extreme operating temperatures of -40°C to 75°C, vibrations, and shocks.

The feature-rich Presterer product family includes silicon optimized for each market and use case, with capacities ranging from 28 Gbps to 12.6 Tbps. The entry-level Link Street family is optimized for ...
