

# Industrial Switch SD Card

Cactus Technologies Industrial Grade SD Card is rugged, highly reliable, high endurance flash storage device which adheres to the SD Association SD Card specifications. It is designed with ...

The Cisco SD-IE-1GB is a 1GB SD memory card that is designed for use with Cisco Industrial Ethernet (IE) series switches. It offers reliable storage for software, configurations, and other data, and is easy ...

Innodisk 3IE4 is an industrial-grade SD card solution with an integrated industrial controller that is designed for embedded applications. With enhanced Flash technologies and a powerful configurable ...

Delkin offers industrial-grade high endurance SLC NAND flash SD card solutions in the D330, D400, and D500 Series, and cost-effective MLC/ Industrial 3D NAND flash versions in the Utility and Utility+ Series.

Supporting Standard (0 to 70oC) or Industrial (-40 to 85oC) temperature ranges, Fortasa's SD, SDHC and SDXC cards are fully compliant with SD 3.0 specification and are designed for use in industrial ...

Cisco 16GB SD Memory Card for Industrial Ethernet (IE-3200/3300/3400) Series Switches.

Flexxon's Industrial SD Card is a robust and reliable storage solution tailored for industrial applications. These Industrial SD Cards are designed to withstand harsh conditions, including extreme ...

SP industrial-grade memory cards deliver high performance and reliability for applications like in-vehicle surveillance and image storage. The range includes SD, microSD, CF, and CFAST cards with SLC, ...

ATP's industrial-grade SD/SDHC cards are designed for mission-critical environments such as in the military, aerospace, aviation, medical, and automotive fields. These SLC NAND cards ...

[10x High Endurance] GIGASTONE Industrial 8GB MLC Micro SD Card, Full HD Video Recording, Security Cam, Dash Cam, Surveillance Compatible 85MB/s, U1, with Adapter [5-Yrs Free Data ...
