

Industrial Switches Assist

Find the perfect connection for every industrial application - from the automotive and chemical industries to the manufacturing and process industries. These solutions are designed for use at all network ...

Newark Electronics offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.

Advantech industrial communication solutions provide a full range of Ethernet switches and media converters to complete the edge access core and last mile client deployment.

Industrial switches are available with a protection class of either IP67 for mounting directly in the field or on the machine, or IP20 for installation in the control cabinet.

We support industrial protocols such as TSN and PTP, providing cutting-edge connectivity for industrial environments, ensuring high-performance and seamless integration.

Wide range of rugged Industrial Ethernet Switches with 2G/3G/4G, Wi-Fi and wireline connectivity. Perfect for Connected Energy, Mobility and M2M and IoT applications.

Industrial switches not only support disaster prevention and emergency response, but also enable real-time monitoring and remote management of production systems.

Whether you need a simple Ethernet industrial switch for basic connectivity or a managed industrial Ethernet switch for mission-critical applications, Dasscom has the expertise and solutions to match ...

Our control panels and motor starters are integrated into machinery, HVAC equipment, tap boxes, safety and disconnect switches, and other essential equipment, providing a cohesive solution that ...

The Embedded Switch Technology embeds popular ethernet switch features directly into your hardware to support high performance applications, without the need for additional configuration.
