

Installation of seismic-resistant brackets for distribution boxes

We offer a pre-engineered, time-saving solution which braces and secures non-structural equipment within a building to minimise damage from earthquakes or seismic events.

Gripple Seismic provides the fastest cable braces on the market, saving contractors time and money due to the speed of installation over traditional rigid bracing or hand bolted/crimped cable methods.

Installation systems for utilities, plants or equipment (nonstructural buildingmembers) equipped with seismic resistant bracing, allow to transfer theearthquake forces ...

UNISTRUT Seismic Bracing Solutions ntractors, Specifiers, and others. We have decades of experience with real-world applications in severe seismic zones, supplying orld-class products and solutions. ...

Using the following table, select how the equipment is to be installed, select the attachment type that best matches the installation you have selected, then turn to the page under the attachment type.

When additional seismic bracing is required, follow the steps in this section to identify where you should place the additional bracing. Then turn to the page showing the details and installation instructions ...

Tested by an independent lab and stamped by a Professional Engineer, the seismic cable kits are designed to brace non-structural equipment and distribution systems to help minimize damage from ...

Zip-Clip seismic bracing systems offer a simple solution to brace and secure non-structural building services, improving the resilience and safety.

Gripple Seismic Bracing systems are ideal for use on nonstructural components and equipment requiring seismic design, such as in essential facilities that are required for emergency operations in ...

Use these instructions to install front and rear seismic mounting brackets to secure the Uninterruptible Power

From design to construction to inspection, the nVent CADDY team makes seismic simple by walking you through the full process for applications including Mechanical, HVAC, Electrical, Plumbing and Fire ...
