

Intelligent Delivery Time for Active Optical Cables

The demonstration showcases how DDX modules, equipped with sensors and microcontrollers, monitor real-time cable health metrics such as temperature, humidity, acceleration, ...

HPE Tech Care Service delivers a customer-centric, AI driven, and digitally enabled customer experience to move your business forward. HPE Tech Care Service is available in three ...

FTS-900 connects the optical cable from the ODF frame of the machine room, collects the micro vibration signal and GPS position information in real time, uploads them to the cloud, and finally ...

Each end houses an optical transceiver (with lasers and photodetectors), and a fiber-optic cable lies between them. When plugged into two devices, the cable automatically performs the ...

Molex Active Optical Cables (AOCs) achieve high data rates over long reaches, using a fraction of the power of other brands while providing streamlined installation for high-performance computing and ...

This full-function active optical cable (M/M) securely connects the USB-C, Thunderbolt 3 or Thunderbolt 4 port on your desktop, laptop or notebook computer to a USB-C data or audio/video device, such as ...

IPEC focuses on standardizing solutions in optical chips, optical/electrical components, and optical modules. Markets addressed by IPEC include 5G, IoT and AI. The gradual digitalization of these ...

The OWC USB4 40Gb/s Active Optical Cable gives you more than the highest speed with the most reliability over long distance. Put up to 240W of power delivery to work for you where you want it.

ActiveOpticalCable offers 1-2 days processing time on most online orders meaning that your order will be shipped within a 48-hour period from the time it was received, excluding weekends and holidays.

The overall result of changing to USB-C active optical cable with power delivery (AOXTM) is a dramatic capability increase and footprint/weight/cost savings with a simplified system architecture.

The UE3410F is a USB-C full-featured active optical cable that handles high-speed data and video transmission and up to 60W power delivery for a distance of up to 10 m simultaneously.

Supports data/video transfer up to 10Gbps, a max. video resolution of 4K @ 60Hz and 60W Power Delivery. The cable has a Kevlar protected fiber and is suitable for sensitive applications due to low ...
