

Intelligent PDU surge protection equipment

This PDU is a rack-mounted smart precision power distribution unit that tracks data center conditions in real-time, and also allows for automatic power cycling or disabling of outlets to reduce current draw ...

Surge protection and power conditioning outside of a rack. Its compact design easily fits along, behind, or near equipment, takes up minimal space, and is perfect for AV, surveillance, and monitoring systems.

The 19" 1U Rackmount 6-Outlet Smart PDU / Surge Protector from Intellinet Network Solutions safely distributes and monitors power to the equipment in your network rack, server room or data center.

Learn about PDU with surge protection and the comparison with a standard surge protector. This guide also explains why they are essential for reliable surge protection and power ...

Upgraded Smart Power Distribution Units (PDUs) provide advanced surge protection, safeguarding telecom equipment from lightning strikes and grid fluctuations. Implementing smart ...

Featuring a modular, flexible design, efficient performance, intelligent monitoring and unparalleled service and support, the PP2 EX is the ultimate mid-range PDU for your critical application.

Explore a diverse selection of Intelligent PDUs, including Enlogic PDUs, tailored to suit your unique requirements. From basic monitoring to advanced metering and switching capabilities, Enlogic PDUs ...

Intelligent PDUs leverage several types of protection devices to protect server devices from any potential surges. These include SPDs, MOVs, and overcurrent-protection devices such as ...

The intelligent PDU surge protector (intelligent meter type) is mainly used for end-stage protection of 220VAC power supplies and is widely applied in backend machines, video surveillance systems, ...
