

Japanese manufacturer s 10G optical active device

JPT offers high-performance active optical cables and direct attach cables with high bandwidth, low latency, and strong compatibility. Perfect for data centers, cloud computing, and high-speed ...

LINTES10G SFP+ AOC is a high-speed solution with cost-effective design which can extend to 100m. It is compatible with 10G Ethernet (10GbE), Fiber Channel 1G,2G,4G,8G (1/2/4/8GFC), 1x InfiniBand ...

As an industry-leading ICT infrastructure and industry solution provider, Ruijie offers customers a wide variety of high-density and low-power 10G optical modules.

Juniper's portfolio of qualified 10G and 1G optical transceivers are low-cost multipurpose modules available in footprint-optimized form factors for deployment across ACX, EX, MX, PTX, and QFX ...

Product catalogs for various optical active devices can be downloaded here.

Gigalight SFP+ Active Optical Cables are direct-attach fiber assemblies with SFP+ connectors. They are suitable for very short distances and offer a cost-effective way to connect within racks and across ...

Experience unparalleled signal integrity with our 10G SFP+ Active Optical Cable, minimizing electromagnetic interference and crosstalk. Maintain optimal data transmission quality and reliability, ...

Our SDX 6000 Series of software-defined optical line terminals (OLTs) consists of open and disaggregated access devices that support a broad range of PON standards, including 10G Combo ...

This high performance device has high reliability and is engineered with low electrical parasitics for data rates up to 10Gb/s. The VCSEL has a circular low divergence beam that can be efficiently coupled ...

This AOC is compliant with SFF-8431 MSA standards. It provides a cost-efficient solution as compared to using discrete optical transceivers and optical patch cables and is suitable for 10Gbps connections ...
