

Layer 3 Management of Fiber Optic Switches

The DXS-3400 Series switches feature a modular fan and power supply design for a high availability architecture. The hot-swappable design means that fans and power supplies can be replaced without ...

The ES2 is a high-performance managed Ethernet switch offering 16x 1 GbE ports, 4x 10 Gb fiber optic ports, and Layer 2/3 support. Features include VLAN, QoS, ...

The GL5080 features Layer 3 switching capabilities and offers wire-speed switching across 16 ports. GL5080 incorporates a comprehensive set of security mechanisms that include high level ...

Gain granular control over your fiber network with comprehensive Layer 3 features ...

Explore the RBG-F4808M3-AC a Layer 3 managed all-fiber Gigabit switch with 48 SFP and 8 10G ports. Redundant power - buy now for high-density networking!

The ES2 is a high-performance managed Ethernet switch offering 16x 1 GbE ports, 4x 10 Gb fiber optic ports, and Layer 2/3 support. Features include VLAN, QoS, IPsec security, and advanced protocol ...

A Layer 3 switch, or multilayer switch, performs both Layer 2 switching and Layer 3 routing using IP addresses. This allows it to route traffic between different VLANs or subnets without needing a ...

Gain granular control over your fiber network with comprehensive Layer 3 features and multi-method management (Web, CLI, Telnet, SNMP). The switch supports robust Access Control Lists (ACL) at ...

Layer 3 switch, or multilayer switch, can do all the job of a layer 2 switch and additional static routing and dynamic routing as well. That means, a Layer 3 switch has both MAC address table and IP routing ...

Designed for businesses of all sizes, Reyee switches offer a range of professional, reliable, and affordable switch models, from Layer 3 to unmanaged, suitable for scenarios including SOHO, ...

Moxa's Layer 3 managed switches feature industrial-grade reliability, multicast availability, and security enhancements based on the IEC 62443 standard.

Internet service providers (ISPs) use Layer 3 fiber switches to manage large-scale networks, optimize traffic routing, and deliver high-speed internet services to end users.
