

Lebanon SC APC Fiber Optic Connector OM3

It comprises of a body with ceramic ferrule/spring/crimp barrel assembly plus a crimp over sleeve and rubber boot. These connectors are suitable for, 0.9mm and 2-3mm cables. The connector is ...

Our two-component approach simplifies installation, maximizes yield, and delivers the superior strain relief properties of a factory-terminated fiber patch cord in a field-terminated connector.

OM1, OM2, OM3, OM4, OM5 or OS2 fiber types are available to meet the demand of Gigabit Ethernet, 10 Gigabit Ethernet and high speed Fiber Channel. Every termination is through rigorous parameter ...

Includes color coded 900um buffer, boot, cleave protector and extended dust cap for easy fiber identification
No epoxy or polishing and requires no special tools

LC, SC, SC-APC, & ST Connectors for Fiber Optic cables. Corning and Unicam brands. Single mode and multimode (OM1, OM2, and OM3) options. Available individually or in packs. Simplex and duplex ...

Our SC simplex APC fiber optic patch cord offers reliable, high-speed connections in data centers, offices, and telecom rooms. Deliver reliable performance with an angled polish connector.

To resolve this problem, the UCL Swift fiber optic splice-on connectors, such as the SC Splice-On Connector, uses the ferrule to disperse this transformation and prevent fiber optic disconnect.

Maximize your network's speed and reliability with our OM3 50/125um duplex multimode fiber optic patch cables, engineered for high-bandwidth applications in data centers, enterprise networks, and ...

They are available in multimode (OM1, OM3, OM4, OM5) and single-mode (OS2) fiber types, with a range of SC, ST and LC connectors. Our premium option offers low insertion loss and custom length ...

The SC/APC connector is an SC connector with the fiber end-face polished at an 8-degree angle. This angle directs reflected light away from the fiber core, achieving return loss better ...
