

# Light source power meter model

Browse Tessco's industry-leading inventory of power meters & light sources. View handheld lights, test lights, and optical power meters today.

The Tempo Communications optical power meters are available in standard and high-power versions for the Telco and MSO markets. Absolute and referenced power measurements ensure fast and ...

See our Optical Power Meters to browse our standard models, or select a product series below to learn more about our products and capabilities.

Optical Fiber Power Meter Komshine KPM-35 with 7 Wavelengths -70~+10dB + Singlemode Multimode Fiber Light Source Komshine KLS-35-MS 850/1300nm+1310/1550nm (Self Calibration)

Don't miss the chance to match your power meter with a new optical light source. Designed with accuracy and power in mind, let the perfect light source enhance your testing capabilities.

AFL's full range of power meters are used for testing single-mode and/or multimode fiber networks. Power meters with wave ID can detect two or more wavelengths simultaneously - decreasing test ...

The EPM-50 Power Meter provides highly accurate power measurements, as well as reference value setting capabilities. It offers power autonomy of 300 hours, for reliable, long-lasting performance in ...

Power Meter and Light Source Designed for installation, commissioning, and maintenance, these tools provide reliability, durability, and a user-friendly interface. Experienced users can quickly ...

The FPM-50A Fiber Optic Power Meter Measures both the absolute optical power and relative power loss in fiber optic cables. Power measurement range -50 to +26 dBm with FC/SC/LC Adapters.

The CMA5 series (Optical Loss Test Set/Light Source/Optical Power Meter) offer superior accuracy and reliability for evaluating a wide range of optical devices and systems including WDM.
