

Looking to buy a tray-type PLC optical splitter in Palau

The Tray Type PLC Fiber Optic Splitter 1xN is designed for reliable and efficient signal splitting in compact fiber trays or enclosure systems. Built with planar lightwave circuit technology, it ensures ...

Like a coaxial cable transmission system, an optical network system also needs to couple, branch and distribute optical signals, which requires an optical splitter to achieve.

Deploying compact FS PLC Splitters to simplify your networks, perfectly fits your PON, EPON, FTTX, etc.

It features small size, high reliability, wide operating wavelength range and good channel-to-channel uniformity, and is widely used in PON networks to realize optical signal power splitting.

Warranty Time: 3 years Connector Type: SC/UPC/APC Ports: 8Ports Fibre type: G657A1 wavelength: 1260nm ~ 1650nm Insertion Losses: ≤ 10.6 dB Loss uniformity: ≤ 1 dB

Broadex Technologies offers a wide variety of splitter products with modularized cassette packaging. These ruggedized ABS plastic modules feature fiber jackets up to 3mm diameter with a choice of ...

1×N tray-type PLC splitter designed for fast installation inside closures, ODFs, and wall boxes. Ideal for FTTH and MDU optical distribution networks.

It features small size, high reliability, wide operating wavelength range and good channel-to-channel uniformity, and is widely used in PON networks to realize ...

Explore our online store for Tray Type PLC Splitters in various configurations, with worldwide distribution. Free shipping on orders over \$200.

These devices enable more effective monitoring and management of optical networks. They are available as components, in our quick connect cassettes, or in custom modules and rack-mount ...

Grandway provides a high precise tray type PLC splitter for the construction of optical network. Low requirements of placing position and environment, compact tray type design.
