manufactures a wide range of braided sleeving products for wire, hose, and cable bundling & protection.
Techflex products are a mainstay in almost every industry such as biomedical, ...
```

With our material recommendation and design assistance services, we can assist you in developing braided medical tubing that is manufactured to your exact specifications.

By using thin walled extrusions and fine wire braiding we can supply single and multi-lumen custom braid

Luxembourg Fiber Braided Tube Fixing and Installation Solution

reinforced tubing with the option of aramid or stainless steel linear members to provide ...

Flex is the manufacturing partner of choice for streamlined product lifecycles. From design to end of life, our end-to-end services optimize efficiency.

Our advanced, proprietary braiding techniques allow compression loads to be increased, which helps our braided tube avoid buckling during excessive compression loading of retrievable, implantable ...

Our tube bonding team is available around the clock to assist you, providing guidance on the best solutions to meet your technical requirements and budget. Machine welding of braided and ...

With metal or fiber reinforcement sandwiched between two customizable extrusion layers, our tubing provides durability without compromising flexibility.
