

Luxshare Optical Module Converter

Luxshare-Tech's power portfolio features Power Module Solutions -- AC-DC and DC-DC rectifiers/converters for efficient energy delivery. Our Power Shelves and Rectifiers provide ...

Co-package optical solution. Adopting silicon optical co-packaging technology, it has lower power consumption and supports 3.2 t transmission rate.

Transform your most demanding AI workloads with breakthrough, silicon photonics based, optical transceivers that enable scalable, high-performance solutions. Luxshare-Tech's optical transceiver ...

At the industry level, optical interconnect is moving toward higher bandwidth, higher density and better thermal efficiency. For Luxshare-ICT, this is not only an optical module opportunity.

Among the key highlights is Luxshare-Tech's 1.6T OSFP DR8 optical transceiver built on silicon photonics. This module delivers high-bandwidth connectivity with low power consumption per ...

Optical Connection Interconnection scheme among external AOC, optical module and optical cable cabinets

Our CPO technology completely subverts the traditional pluggable optical module architecture by co-packaging the optical engine and the switching chip, achieving a leapfrog breakthrough of...

The Skorpios Tru-SiPh™ Technology Provides A Cost-Effective, Highly Integrated, and Reliable Transmitter to Power 8-Channel, 100G PAM-4 2xFR4 Optical Modules

These transceivers will combine POET's 100G/lane and 200G/lane optical engines with Luxshare Tech's advanced optical module designs.

As a leading player in the optical interconnect industry, Luxshare-TECH is committed to providing innovative and high-quality products and solutions that empower the AI industry.
