

## Manufacturer of optical cable survey instruments with OTR function

The GAOTek Fiber Precision Analyzer is a compact, dual-wavelength tester for FTTx and network maintenance. It features OTDR, Optical Power Meter, and Visual Fault Locator with measurement ...

The TC-170 Smart OTDR is a new generation of portable, intelligent measuring instruments created to assist clients in resolving field test and maintenance issues. It has a color touch screen of 3.5 inches ...

The OTDR is an easy to use, full-featured handheld test instrument that is capable of measuring the length to a fault or the length of singlemode fiber optic cables. The 930XC also measures the ...

OTDR-Optical Time Domain Reflectometer is a portable optical fiber fault locator that can use OTDR components and more powerful software analysis tools to quickly detect the location and type of ...

OWL manufactures a complete line of fiber optic test equipment for a wide range of applications, including telco, WAN, MAN, LAN, SAN, CATV, IT, manufacturing, and laboratory.

Fluke Networks OptiFiber® Pro OTDR built for enterprise fiber optic cabling certification testing. It supports copper certification, fiber optic loss, OTDR testing and fiber end-face inspection.

Explore our full range of inspection tools, OTDRs, power meters, FTTx diagnostics, and software designed for fast, reliable network deployment and maintenance.

Anritsu provides a vast range of OTDR products capable of fault diagnosis and optical transmission characteristic analysis for multicore optical fibers, submarine optical cables exceeding 10,000 km in ...

OTDR handheld Optical Time Domain Reflectometry is a new generation of intelligent optical-fibre communication instrument.
