

Modular Data Center Cold Aisle High Temperature Resistance Manufacturer

We provide the best solution to eliminate hot and cold air from mixing between aisles regardless of rack configuration and other design challenges. Whether it's live environment or new construction, ...

Adapt Versatile Aisle Containment Solutions for Both New and Existing Data Centers. Cool Shield(TM) products provide customers with versatile, turnkey aisle containment systems for new or existing ...

AisleLok ® Modular Walls are an ideal solution for creating separation between hot aisles, cold aisles, and other areas of a data center to help contain and manage airflow.

Rittal's aisle containment solutions reduce data center cooling costs by up to 30%. Modular design ensures quick deployment, improved airflow control, and easy scalability with existing IT infrastructure.

Our innovative, modular containment designs adapt to your installation in order to maximize energy efficiency while creating a predictable operating environment that increases equipment reliability.

Keep your server rack aisles cool to prolong network equipment life and data center efficiency. Full scale aisle containment solutions. Modular kits for every edge-of-network application.

MRS, as a leading cold aisle containment manufacturers, is at the top of this technology in providing quality, customizable solutions designed to meet the more-than-everyday demands of today's data ...

Sintel's custom hot and cold aisle containment systems are designed to eliminate hot spots and reduce energy consumption in the most demanding data center environments.

Explore Tate's modular containment solutions for data centers, including hot and cold aisle systems, hard roofs, doors, and custom partitions designed to improve cooling efficiency and reduce energy loss.

Depending on your facility's layout, Armstrong Aisle Containment Solutions offer both Hot Aisle Containment (HAC) and Cold Aisle Containment (CAC) systems to suit new builds or retrofit ...
