Moisture-proof and waterproof protective sleeve for fiber optic cable junction boxes

These sleeves prevent mechanical damage, moisture ingress, and environmental stress -- all while keeping the optical fiber perfectly aligned inside. Available in standard lengths of 40mm, ...

These enclosures safeguard delicate optical fibers from environmental hazards such as moisture, dust, and mechanical stress, ensuring signal integrity and long-term network reliability.

Fiber Splice Tray & Protection Sleeves ensure 100% protection & cable management for fusion and mechanical splicing, holding up to 6, 12, 24 single/ribbon Fibers.

These enclosures offer waterproof and durable protection against harsh conditions. The Fiber Optic Splice Enclosures provide the secure, organized, and weather-resistant storage solutions needed for ...

This encloses the inner tube and the encapsulated fiber splice, providing double protection and ensuring that moisture and air are eliminated from the fiber splice.

Material: PC+ABS (30% PC-70% ABS) is UV-resistant, flame-retardant, moisture-proof, waterproof, dust-proof and ageing-proof, and the protection level reaches IP65. Color requirements: ...

Molex"s optical splice protection sleeves provide a moisture-resistant barrier after shrinkage and afford fusion splice protection in many applications.

The Protective Box with Fusion Splice Sleeves is designed to protect fiber optic splices from damage caused by external forces, such as impact, vibration, and moisture. The box is made of durable ABS ...

Fiber Optic Wall Mount or Pole Mount Enclosure for Indoor or Outdoor Fiber Optic Terminations and Fusion Splice installations with Couplers. (LC OS2 NO Pigtails)

UnitekFiber"s waterproof FTTH terminal box is made of high strength plastic, UV-resistant, water resistant, suitable for indoor and outdoor wall and pole mounting and overhead installation. The ...
