

Nordic 96-core ADSS optical cable

The loose tube design provides stable performance over a wide temperature range and is compatible with any telecommunications-grade optical fiber. The cable design can span distances in ...

Water blocking tape Aramid yarn Rip cord Black PE outer sheath Cable diameter: 15.4±0.3mm

This ADSS fiber optic cable structure has no metal substance inside, suitable for lightning area, high voltage area, designed for voice, data, broadband and CATV transmission in long distance, ...

ADSS Completely metal-free design with fiber counts from 12 to 288 fibers, suitable for deployment near high-voltage power lines in long spans. These cables can be installed in short spans between aerial ...

You will receive a final quote that will include: updated pricing, estimated lead times, and shipping costs. If you have any questions about this process, please call us at 262-249-8705.

ADSS Completely metal-free design with fiber counts from 12 to 288 ...

AFL's ADSS (All-Dielectric Self-Supporting) fiber optic cable is designed for aerial installation without the need for messenger wire. Lightweight, non-metallic, and durable, it's ideal for power utility and ...

American Tech Supply has been supplying your 96 fiber ADSS fiber cable up to 144 fiber to 288 fibers to 432 fiber count to 864 fibers since 1995 for use in aerial and FTTH applications throughout the USA. ...

High-strength double jacket ADSS fiber optic cable with 96 cores, 400m span, and PE/DOUBLE JACKET for durable aerial installations. OEM options available.

The double-jacket cable design allows for higher tensile strength with more aramid yarn. For this reason, double-jacket designs are almost always required in transmission line applications where longer pole ...

We maintain stock of all common fiber counts of ADSS Cable, ready to manufacture and serve as your one-stop solution for ADSS Fiber Optic Cable, FTTH (Fiber to the Home), OSP (Outside Plant), ...
