

Number of 670nm laser diodes in the Philippines

The easy integration and safe use of these laser components in combination with several accessories and features give the chance to be cost-efficient in development and manufacturing.

Our vast selection of laser diodes includes both free-space & fiber-coupled outputs, like high-power Fiber-Coupled Multimode, high beam quality single mode, and narrow linewidth & wavelength ...

The LDM115G/670/3 is an Imatronic range of self-contained OEM Laser Diode Module emits dots, lines or crosses. It is designed for industrial applications and offers superior ruggedness within a range of ...

LDM-1x series, PCB mountable, focusable (100 µm spotsize), divergence < 1 mrad, beam size at aperture 1 x 2.5 mm, supply voltage 3-6 VDC, black anodized aluminum body.

The Philippines Laser Diode market faces challenges related to the precise and high-tech nature of laser diode technology. Cost is a primary obstacle, as laser diodes can be relatively expensive to ...

Shop DigiKey's large in-stock selection of Laser Diodes, Modules. View inventory, pricing and order now for same day shipping!

Features Output Powers from 1 mW to 1600 mW Center Wavelengths Available from 404 nm to 690 nm Various Packages Available: TO Can and TO Pigtailes Compatible with Thorlabs" Laser Diode and ...

Laser diodes are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many laser diode manufacturers including ams Osram, KYOCERA AVX, ...

TOPTICA EAGLEYARD is a global leading provider of high power laser diodes with wavelengths from 630 nm - 1120 nm based on GaAs (Gallium Arsenide). Our products combine maximum power, ...
