

ODF patch panel with double doors

Front and back doors and side panels are available as accessories. The modular construction means that the complete optical distribution frame can be quickly assembled by a single installer. The ...

Available for small capacity communication system, wall mounting, reasonable and compact structure, harmonized with machine room. The cabinet is composed of two parts, one links with optical cables ...

Compared to typical data center cabinets, FlexCore ODF can reduce floor space in a data center by 50%. In addition, with side panels and doors with locks, the system can be completely ...

Panduit FlexCore(TM) Optical Distribution Frame solution offers the ultimate in flexibility, manageability, scalability and security.

Belden's DCX Optical Distribution Frame (ODF) Cabinets are fully configurable, front access cabinets that serve as a high-density fiber interconnect or the main building block for a large fiber cross-connect.

ODF patch panels are designed to provide a high density 19" rack-mountable solution for next generation fiber networks, it is used as terminal equipemnt of fiber optical cable for fiber ...

Multi-layer security with lock capability available at both 4RU enclosure and ODF doors Total front access cabling principles and modular building blocks of 150mm, 300mm, and 600mm (width of ...

DME PROLINK's Mini ODF is an indoor distribution frame for fiber counts suitable for 216 Fibers. This closure are used on applications where cables have to be spliced directly.

LongXing optical fiber distribution frame GPX82-9-2 is made of top quality steel treated with galvanizing, oxidation and electrostatic plastic spraying. The frame has solid structure and pleasing appearance.

The ODF fiber patch panel can be used as a fiber distribution frame in a 19-inch cabinet, or it can be used in a cabinet similar to a digital distribution unit and an audio distribution unit to form an ...
