

Optical Module Dual-Connector Cable

Stay ahead of increasing telecommunications application demands and data center space limitations with the LightWave 24-Fiber Single MTP/MPO to Dual MTP/MPO Fiber Optic Fanout Cable.

OptoSpan Fiber Optic Adapters are designed to quickly connect two fiber optic patch cables together within a fiber optic networking system. These provide a reliable connection between connectors of ...

The opticalCON system is based on LC-Duplex connectors bu...

The cable has one dual CS/UPC connector on the common port that can be directly connected to the COM port of the QSFP-DD-OLS and 16 dual LC/UPC (labelled CHi-RX/TX) that can ...

Delivering optical and electrical connections within the same compact connector, MediSpec Hybrid OptoMiX Connectors and Cable Assemblies offer customized capabilities for combined data, signal ...

Dual fiber modules use two separate fibers: one for transmitting (TX) and one for receiving (RX). This is the most common setup and is widely supported in standard optical networking.

Fiber Optic Cable Types Fiber optic cable is designed to transmit data using light signals instead of electricity, making it faster, more secure, and immune to electromagnetic interference compared to ...

Ideal for audio and broadcast networks. The opticalCON DUO cable connector accommodates a standard optical LC-Duplex connector in a ruggedized and durable all-metal housing. It features a ...

High-performance MPO cable solutions and adapters from Molex ensure fast, reliable data transmission with superior connectivity for high-density network applications.

Arista's Optical Modules and Cable portfolio offer a wide variety of high-density and low-power 800G (dual 400G), 400G, 200G, 100G, 50G, 40G, 25G, 10G, 1G, and 100M Ethernet connectivity options ...
