

Optical Splitter 641

Explore our collection of optical cable splitters and PON splitters for sale. Optical beam splitters are used to split the fiber optic light evenly into several parts at specific ratios. Buy optical splitters and passive ...

PPC Optical Splitters are available for symmetrical splitting into 2, 4, 8, 16, or 32 divisions and can be cascaded to spread out splits into smaller, optimized serving areas.

46-641 - Beam Splitter from Edmund Optics. Get product specifications, Download the Datasheet, Request a Quote and get pricing for 46-641 on GoPhotonics.

Our team of experts is available to assist you with any questions regarding our products in photonics and ultra-trace analysis. We provide independent advice and offer fair conditions. We are also your ...

This 75 x 75 mm rectangular beamsplitter, model 46-641, is a high-quality optical component sourced from Edmund Optics. It is designed for use in the 400-700nm wavelength range, making it suitable ...

One ways of optical fiber signal input splitter to three sets of SPDIF/TosLink signal receiving device. Free lifetime technical support from the manufacture and free 1 Year Manufacturer ...

BMI Surplus, Inc. has a huge inventory of used, new and pre-owned Optical Prisms for sale. We will work with you individually to find the perfect set up for your application.

Thorlabs offers a wide range of optical beamsplitters. Our plate beamsplitters have a coated front surface that determines the beam splitting ratio while the back surface is wedged and AR coated in ...

Equip your business with optical splitters of top-notch quality from the USA. The splitters are compact in size but exceptional in functionality. Get a quote.

Beamsplitters are optical components used to split input light into two separate parts. Beamsplitters are common components in laser or illumination systems. Beamsplitters are also ideal for fluorescence ...
