

Optical module with cable

Samtec's 14 Gbps FireFly(TM) FMC(TM) Module provides up to 140 Gbps full-duplex bandwidth over 10 channels from an FPGA to an industry-standard multi-mode fiber optic cable. The FireFly(TM) optical ...

Amazon : POLISI3D Fiber Box Reel with Build-in Sky End Optical Fiber Cable Image Data Module Kit, Wired Signal Transmission Optical Receiver Link Ground End Station Compatible with FPV ...

All of our products are produced with Molex's high-quality standards, delivering superior optical, electrical and EMI performance for network robustness. Furthermore, Molex is a one-stop-shop for ...

Fiber optic transceiver modules are fiber cable adaptive housings that contain a light source for transmitting data via fiber optic cable as well as a photodiode for receiving fiber optic data.

Genuine Amphenol 10GBASE-SR SFP+ Optical Transceiver Modules provide a high-density, high-performance interface for 10-Gigabit Ethernet and Fibre Channel applications.

SFP+ transceiver that supports 10G connections up to 300 m using multi-mode fiber with a duplex LC UPC connector.

Reliable, high-speed data transmission is essential for modern networks, and optical modules and cables provide the backbone for seamless connectivity. These solutions ensure low-latency, high ...

Optical modules typically have an electrical interface on the side that connects to the inside of the system and an optical interface on the side that connects to the outside world through a fiber optic ...

FS offers a growing portfolio of optical transceivers, with speed range from 100M, 1G, 10G, 25G, 40G, 50G, 100G, 200G, 400G to 800G and beyond. The fiber optic transceiver modules can work in any ...

To accommodate an increasing spectrum of applications, Arista offers a wide choice of OSFP, QSFP-DD, QSFP, SFP, SFP-DD and DSFP transceivers and cables that comply with industry standards, ...
