

Polymer Cable Trays for Low Voltage Cables

Made from the highest quality pultruded materials, our Fiber Reinforced Polymer (FRP) cable tray is extremely durable and resistant to chemical attack, with a proven record of performance in the most ...

In addition to providing ease of access to cables post-installation, J-Hooks provide installers with the flexibility to route through tight spaces on site. Our pre-assembled J-Hooks are mounted with various ...

Explore precision-engineered Wire Mesh Tray built from high-quality welded steel, offering a safe, reliable pathway for low-voltage and data cables with a patented load-optimized design.

Polymer cable trays are lightweight, durable systems crafted from plastic to manage and support electrical cables. They're designed to be highly resistant to corrosion, UV radiation, and various ...

The nVent CADDY Wire Basket Tray System is an industry leading continuous pathway support solution for today's high-performance cabling systems. Highly engineered features help ensure a secure ...

Flextray wire mesh basket is ideal for commercial and data center cable management, providing a flexible means of adapting your tray to fit your job-site application.

It provides speed of deployment, structural integrity, cable protection and ease of use to drive business results. The wire basket is up to 20 percent lighter than competing brands and features larger ...

The construction of the nVent Wire Basket Tray shaped tray eliminates stress and pressure point on today's high speed/performance cabling media. Minimally 400% increased support, and cable strain ...

Basor Electric, the premier choice for cable management solutions, delivers unparalleled quality and innovation in cable tray and ladder systems. With a diverse range of styles and materials, our ...

The cable management system's electromagnetic performance characterises its ability to protect its cables from external electromagnetic disturbance; if this is controlled, the data carried by the cables ...
