

# Pressure optical cable

OZ Optics" VAC series of fiber optic vacuum pressure feedthroughs provide a simple way to use optical fibers with vacuum and pressure chambers. They are available in two versions - a penetrating ...

SeaKing(TM) is an innovative new connector series that eliminates a broad range of mechanical design weaknesses found in many of today"s high-pressure subsea ...

PAVE connectors are engineered to hold, in both pressure and vacuum directions, across temperature extremes from -200°C to 200°C, and in environments where failure isn"t an option.

What are harsh environment fiber optic cables used for? They"re used in tough industrial settings where moisture, vibration, and mechanical stress can affect signal quality.

These cables utilize an elastomeric tube as a conduit for electric wires and fiber optic lines. This conduit is filled with a compensating fluid, allowing the sea pressure to freely communicate with the interior ...

CommScope designs and manufactures a comprehensive line of fiber optic cables--from outside plant to indoor/outdoor and fire-rated indoor fiber cables.

Fiber Cable Belden"s extensive line of indoor and outdoor cable products is offered in tight buffer and loose tube designs. Armored, burial, and ruggedized designs are suited to a host of industrial ...

Combines copper conductor and optical fibers within the same cable structure for simultaneous deployment. Withstands elevated temperatures, high pressure and corrosive environments.

Typical applications include the oil & gas and geothermal industries, where the fibers are used for real-time downhole temperature and pressure measurements, data transmission, acoustic, seismic and ...

These sensors utilize optical fibers to detect pressure changes, making them immune to electromagnetic interference (EMI) and ideal for use in harsh conditions, such as in the oil and gas, aerospace, and ...

The OPP-C pressure sensor is compatible with all Opsens Solutions" WLPI (Patent #7,259,862) signal conditioners. This compact and very robust probe can be customized to specific customer ...
